Consultation Session

Welcome to JUVA MED!! Start by explaining your ailment?

I have dry cough, difficulty breathing as well as short breath

What underlying conditions do you have?

I don't really have an underlying condition to say. But I feel like suffocating when inhaling rub or smell of kerosene

Consult JUVA MED

no I have never went for any diagnoses before

If you never went for any diagnoses before, what makes you feel you are not ok?

I don't know, I thought I should find out if am ok

How are you feeling?

Well, The thing is often get nasal congestion and there was a time (a few months back) when I was having heaving sneezing, I could sneeze heavily like 6 times in a row

Do you have any nasal discharge, sore throat, or headaches?

Yes , I have sore throat and headaches, as well as nasal discharge

What is the color of your nasal discharge? Is it clear, yellow, or green?

it's mostly clear but sometimes yellow but it isn't green?

What color is the urine consistently? Do you have a medical image of the urine?

The urine color is clear sometimes it's yellow. I don't have medical image of the urine

Do you have any other symptoms, such as pain, fever, or nausea?

no I don't have these symptoms

Please describe your symptoms.

The only observed symptoms I have is headache

How long have you been experiencing this headache?

Not long, a few months back

When did you first start experiencing the pain in the upper abdomen?

Do you have any other symptoms, such as a fever, chills, or fatigue?

No

Do you have a medical image?

I have provided a medical image chest scan to you. Please check

Sorry, I cannot perform that task.
